I propose a tea stall for office workers in Pune, with pre-order pickup before work.
I spoke to 30 workers; 18 said they would consider buying, but I have no confirmed orders.
Startup investment is INR 20000, own funds INR 12000 and requested loan INR 8000; the selling price is INR 10 per cup.
Estimated revenue is INR 30000 per month and expenses INR 22000 per month; profit is not yet verified.
